

SVA Technology Use Policy

Privacy Notice

Spring Valley Academy's computer technology network and internet system is to be used for educational and professional purposes. Users are reminded that all computer, network, and internet use may be monitored by the school and that there is no assurance of privacy or warranty of any kind, either expressed or implied, that all services provided through this system will be error-free or without defect. All users of the system agree to abide by all school policies as noted in the Spring Valley Academy School Bulletin and Acceptable Use Policy.

School Web Site

Spring Valley Academy makes every effort to insure that all links are operational and all information is accurate, appropriate, and of high quality. The viability of links that are not created through our school cannot be guaranteed. The linked sites are not under the control of the school and the school is not responsible for the content of any linked site or any sites contained in a linked site or any changes or update such sites.

SPRINGVALLEYACADEMY.ORG is the only official website of Spring Valley Academy. Any attempts to mimic this web site, create web sites advertising themselves as official web sites of Spring Valley Academy and/or creating redirection links to or from this are illegal and are not condoned by Spring Valley Academy. Students of the school engaged in any of these activities will be dealt with under school student conduct codes.

Purposes and Guidelines for Web Content and Use

Purposes for the School Web Site include:

- **Educational**

Content provided in the Web Site should be suitable and usable by student and teachers to support the curriculum and course of studies within the school.

- **Informational**

Its content provides information for students, teachers, staff, parents and the community concerning schedules, events, curriculum and course of study and policies, etc. It also provides a repository for various applications and forms used by students, parents of students, and prospective parents and students in the normal course of operations. Information is also provided to the SLA Alumni through the Alumni tab.

- **Communication**

The website serves as a means for the school to communicate information concerning the school and its activities to the members of the community and other parties that may be affected by the school's activities. This site provides a portal for the receipt of payments through the schools webpage by using the "On-line Payment" link at the top of the page.

1. Guidelines for posting materials to the school web site:

- a. All materials must meet the provisions of the federal Children's Internet Protection Act (CIPA).
- b. All materials shall be in compliance with Spring Valley Academy policies, operating procedures, and applicable Federal and state statutes.
- c. No photographs or other information identifying individual students will be posted without prior written permission of the student's parent(s) or guardian(s) or the student (for students over 18 years of age).
- d. All materials shall meet the purpose of the school web site as stated above.
- e. Posting of grades, test results or similar materials for individual students will be done only within a well-defined framework of a secure password protected access system, limited to the student(s), parent(s), guardian(s), teacher(s), administrator(s), or the individual student. Spring Valley Academy uses RENWEB for the purpose.
- f. Control of the posting of materials and editing of pages will remain with the principal or his designee.

Computer Technology Use Agreement

Spring Valley Academy is pleased to make available to students access to computer technology, connectivity to the internet, and other school networks, use of software programs and peripherals (henceforth also referred to collectively as “the system,” “network,” or “technology resources”). The internet or World Wide Web (WWW) is the worldwide network that provides various means of accessing significant educational materials and opportunities via a connected computing device.

In order for the school to be able to continue to make these technology resources and connectivity available for appropriate and lawful use of this system, students must understand that one student’s misuse of the network and/or the internet connection may jeopardize the ability of all students to enjoy such access. While the school’s teachers and other staff will make reasonable efforts to supervise student use of computers, network use, and internet access, they must have student cooperation in exercising and promoting responsible use of these resources.

In order to maintain and encourage appropriate and effective use of computer technology and connectivity, Spring Valley Academy has defined a set of Rules for Computer and Network Use and an Acceptable Use and Inter Safety Policy (henceforth referred to as Computer Rules and AUP respectively). The AUP is part of a series of Spring Valley Academy policies and guidelines. All students and staff are required to sign a Technology User Agreement that signifies their understanding and commitment to follow these regulations.

Scope of Coverage for all Technology Policies

Policies, guidelines, and rules described in this guide refer to all computing devices, including the following but not limited to:

1. Desktop computers
2. Laptop computers
3. Handhelds or PDA
4. MP3 players, iPods
5. Portable memory storage devices
6. Calculators with interfacing capability
- 7. Cell phones, I-Phones, Smart phones, etc.**

Possession of and/or distribution of any of the above software tools designed to facilitate any of the above actions will also be considered an offense.

Internet Safety

Individual responsibility

Users/parents/guardians are advised that use of any network includes the potential for accessing web sites with inappropriate materials. It is the responsibility of all users to attempt to avoid these sites through prudent use of the internet. If a student accidentally accesses one of these sites, they should immediately exit from that site and/or notify a staff member. If a student finds that other users are visiting offensive or harmful sites, they should report such use to the proper authorities

Practice Personal Safety

Do not reveal personal information such as your full name, home address, phone or credit card numbers or other information which might allow a person to locate you. Do not arrange a face to face meeting with someone you "meet" on the internet without your parent's permission. Avoid the use of web sites that allow you to share such private information about you, your family, and/or friends with others. Do not share any personal information of another family, another students, faculty, or friends.

Confidentiality of Student Information

Personal identifiable student information may not be disclosed or used in any way on the internet without the permission of a parent or guardian or a student who is 18 or older.

Active Restriction Measures

The school, either by itself or in combination with the provider of internet access, will utilize filtering technologies to prevent students from accessing visual depictions that are obscene, child pornography, or harmful to minors. The school reserves the right to monitor student's computer/online activities through direct observation and/or technological means to ensure that students are not accessing such depictions or other such materials. It is important to note that any filtering system is not 100 percent effective. Students should follow all school rules to avoid inappropriate web sites.

Privacy

The school reserves the right to monitor, inspect, copy, review and/or store at any time and without prior notice any and all results of usage of computers, network and/internet access and any and all information transmitted or received in connection with such usage. All such information shall be and remain the property of Spring Valley Academy and users shall have no expectation of privacy regarding such materials.

Warranties/Indemnification

Spring Valley Academy makes no warranties of any kind, either express or implied in connection with its provision of access to and use of its computer networks and the internet provided under this policy. It shall not be responsible for any claims, losses, damages or costs (including attorney’s fees) of any kind suffered, directly or indirectly by any user by his or her parent(s) or guardian(s) arising out of the user’s use of its computer networks or the internet under this policy. By agreeing to this policy, users are taking full responsibility for his or her use, and the user under 18, the parent(s) or guardian(s) are agreeing to indemnify and hold the school, faculty, and staff harmless from any and all loss, costs, claims or damages resulting from their user’s access to its computer network and internet.

Policy Updates

Due to the rapidly changing nature of technology, this policy will be reviewed annually.
